

Join a great team!

Myers LLP is a Winnipeg-based, mid-sized, full-service law firm committed to working collaboratively in providing high quality legal services to our diverse clientele. We represent a wide variety of clients, both large and small, and provide services in multiple practice areas.

Indigenous Legal Services Associate

We are interested in hiring an associate lawyer with 3 to 5 years' experience to join our Indigenous Legal Services team. As a member of the Indigenous Legal Services team, you will provide advice and guidance to our First Nations clients and their communities in a variety of areas including employment law, administrative law, recognition of rights, strategic advice for economic development, and consultation on environmental law. You will also assist them through consultations and negotiations, including negotiation of claims and land entitlements. The successful candidate must be prepared to work as a junior on larger cases, as well as taking the lead role on other files.

Civil Litigation Associate

We are also interested in hiring an associate with 3 to 5 years' experience to join our litigation team. As a member of the civil litigation department, you will assist a team on larger cases and work independently on other litigation matters, providing services in a wide array of litigation matters including employment law, insurance law, personal injury, products liability, medical malpractice and other professional negligence claims, corporate law disputes, construction law, estate litigation, and administrative law matters, among other areas.

Our firm offers a very competitive compensation and benefits package. We believe strongly in the value of mentorship and strive to provide meaningful opportunities for associates to learn and grow their practice with the help and support from partners and senior associates. We have built a collegial and positive firm culture that is friendly, collaborative, and flexible, with a focus on teamwork. We celebrate our wins together and find opportunities to have fun along the way. Our associates of today are our partners of tomorrow.
